

## Helping Local Farmers Grow

It is our 10th year of supporting local farmers with infrastructure improvements. Thanks to the support of our three lead partners, (**Harold Grinspoon Charitable Foundation**, **Big Y**, and the **Massachusetts Society for Promoting Agriculture**) and 15 community funders, 100 farms in the four counties of Western Massachusetts received Local Farmer Awards, a record for us. Here are some examples of the capital improvements being made on local farms:

**Replacement Farm Gates and Posts** for a grass-fed lamb farm on 200 acres in Leyden will help keep the livestock safe from predators and allow the farmers to easily enter the fields for feeding.

**Hoops for Heat** will aid a BIPOC-led urban farm in Springfield by keeping their crops covered early in the season allowing for season extension through unpredicted weather variances.

**Reusable Harvest Bins and Cart** will allow the farmer at a young vegetable farm in Great Barrington to streamline the harvesting process meaning fewer trips to and from the wash station. Additionally, the bins will aid in transporting the vegetables to the farmers market.

The Local Farmer Awards is delighted to have helped fill financial gaps for farm capital needs by investing over \$1.5 million to date in our agricultural ecosystem.
